In submission of the BEAR form, July 2015, it was discovered the SPIN NUMBER had to be changed as the company merged with another company. I filed a new spin number and was granted the change. I have notes from a call dated 11-23-15 when I called David and asked him to file the form 473 so we could receive our funds. I called each month afterwards with no response. In the spring of 2016, I called and David said they couldn't file a 473 until July 1 as the form was going to be on-line. It's been very time consuming to get this provider to file a form. I've attached an email sent to David early August that demonstrates my frustration.

I would appreciate it if you would understand it wasn't my fault for missing a deadline. I had no control over the provider's action in this matter.

Please call me if you have any questions @ 712-366-0503.

Sincerely,
